SUMMARY

Software Engineer with 3+ years of experience designing and scaling backend services and distributed systems. Skilled in **Java, Kotlin, Spring Boot, and Microservices**, with proven success in **optimizing API performance (up to 40% usage increase)** and delivering **cloud-native applications on AWS and Docker**. Strong focus on **Clean Architecture, CI/CD automation, and Agile collaboration**.

TECHNICAL SKILLS

- **Languages:** Java (8,17), Kotlin, JavaScript (Node.js)
- **Frameworks:** Spring Boot 3, Spring Reactive (WebFlux), React
- **Databases:** MySQL, MongoDB, Elastic Search
- **Architecture:** Microservices, RESTful APIs, Clean Code, System Design
- **Cloud & DevOps:** Git, Jenkins, Kafka, Docker, Kubernetes, AWS, Airflow
- **Observability:** ELK Stack (Elastic Search, Logstash, Kibana), Grafana, k6
- **Core Strengths:** Distributed Systems, Performance Tuning, Scalable Schema Design, ETL Processes, SDLC Management, Data Structures, Algorithm, Multithreading, Collections, Cross-functional Collaboration
- **Certifications:** Introduction to Generative AI, AWS Fundamentals, Information Security Awareness

WORK EXPERIENCE

Lowe's India Pvt Ltd

Feb 2025 - Jan 2026

Software Engineer - Lowe's India Pvt Ltd

Bengaluru, Karnataka

Backend Engineering | Kotlin • Spring Reactive • MongoDB • Microservices

- Built **vendor-facing microservices (Kotlin, Spring Reactive, MongoDB)** for onboarding and data delivery, improving integration reliability and throughput.
- Delivered platform enhancements that drove a **40% increase in feature adoption**.
- Optimized Agile workflows and delivery processes, boosting **team efficiency by 25%**.

Sonata Software Ltd

Sep 2022 - Jan 2025

Digital Engineer - Sonata Software Ltd

Bengaluru, Karnataka

Java • Spring Boot • MySQL • Jenkins • CI/CD • Node.js • JavaScript • Retail E-commerce Platforms

- Developed **backend services and REST APIs (Java, Spring Boot, MySQL)** with scalable schema architectures.
- Optimized query logic and service layers, reducing **API response times by ~20%**.
- Owned end-to-end SDLC with **Jenkins CI/CD pipelines**, ensuring reliable production deployments.
- Partnered with Aditya Birla Fashion & Retail Ltd (Peter England, Tasva) to enhance stability and performance benchmarks.

KEY PROJECTS

Item Grouping & Management

Feb 2025 - Jan 2026

Lowe's

- Architected a **recommendation system** linking related items for personalized checkout, driving **higher customer conversion rates**.
- Implemented **Virtual Pack, DQ Validation**, and real-time **Grafana dashboards** for observability.
- Integrated **AI-driven report analysis** with Clean Code Architecture, ensuring long-term maintainability.

Portfolio Management Enterprise Tool

Jan 2023 - May 2024

- Designed a **portfolio management system** consolidating enterprise budgets, forecasts, and financial summaries.
- Built **high-performance backend reporting modules** that improved **financial visibility and strategic decision-making** across teams.

EDUCATION

Bapuji Institute of Engineering and Technology

May 2018 - Jun 2022

Bachelor of Engineering, Electronics & Communication

- **Achievements:** Awarded 2nd Prize for CNC Machine Development using Arduino
